

Joint Venture with Hitec Products Pte Ltd

Due to the increase in the demand of their products in the Asian region, Norwegian company, Hitec Products, headquartered in Stavanger, has established Hitec Products Pte Ltd in Singapore in a joint venture with Hydratech Industries Pte Ltd.

Hitec Products has an extensive track record in the Asian region, and will now work more closely with existing and new clients by offering service and support from a local facility. Opening with Singapore facility now enables Hitec Products to offer their unique blend of products and systems to support clients in the subsea and topside market.

About Hydratech Industries

Hydratech Industries provides a strong platform to Hitec Products with our dedicated team of staff with many years of experience in delivering high pressure systems and solutions to our customers. With closely fostered alliances, we always strive to meet all expectations of our customers with the best valued products and services.

Our aim is to be the market leader in the Asia Pacific region.

About Hitec Products

Hitec Products is a global leader in the provision of specialty electro-hydraulic control systems, chemical injection systems and services to the oil and gas industry for the topside subsea, pipeline and refinery markets. They pride themselves on being able to deliver the highest quality technology and service solutions to their customers, meeting and often exceeding operating and health, safety and environmental goals.
